---

**Overview:**

I joined Dundalk Photographic Society in 2008. I had completing the Beginners classes almost six years previously. I use a Canon 5D Mk iv and 5D Mk 11 mostly with a EF 24-105mm f/4L Canon lens. I also use a Canon 70-200L Mk 11 lens and a Sigma Art 50mm 1.4. I also use a Phantom 4 Pro drone with 20MP 2.2 camera.

My preferred genre is people photography of all types although I have recently taken an interest in landscape/seascape photography as well as drone and aerial photography.

I am comfortable shooting in the studio or on location and use a wide variety of Elinchrom lights and equipment.

I am also comfortable managing large groups for occasion photography.

---

**Achievements to Date**

I was awarded my Licentiate (LIPF) with the Irish Photographic Federation in November 2015 and may in the future pursue further achievements.

I have been an active committee member in the society for the past number of years and currently hold the position of Competition Secretary.
