

## Patrick Clarke and LED Studio Lighting

Patrick Clarke from Seamless visited us in the clubrooms on Thursday 29th November. Patrick got his BA degree in Photography and MA degree in Journalism before travelling extensively around the world with camera in hand. However, his visit to DPS was to show us continuous lighting from a single light to create stunning portraits with a shallow depth of field. Patrick started out with theory and followed up with a live photo-shoot demonstration via tethered laptop and projector. He also gave some valuable coaching on posing techniques. Everyone left the clubrooms armed with new knowledge.

Patrick also showed us a link (details below) to podcasts entitled 'Be Inspired'. He would appreciate feedback on any you found of interest.

<https://itunes.apple.com/ie/podcast/be-inspired-photography-podcast/id910181746?mt=2>

Perhaps, if Patrick returns, we might see some of his travel images or he may conduct a full lighting workshop for us!

A big 'thank you' to Aga for stepping in and assisting on the night.
