

## Seán Kennedy LIPF EFIAP

We had a great night's entertainment last Thursday, when Seán Kennedy LIPF EFIAP came down from Dublin Camera Club and spoke about his photography. There were many a good black and white prints on show but his infrared images stole the show. He followed up his black and white work with some colour images and a collection of slide shows from his travels, especially those from Spain and those he took within 10 minutes of his home in Sandymount, Dublin.
