

## John Miskelly FBIPP ARPS

Last Thursday we were treated to a superb evening from John Miskelly FBIPP ARPS. John presented a very polished lecture on how he achieves his fabulous images. Club members were enthralled by the selection of images that were both simple but yet stunning. John is renowned for his landscape photography.

John was judge for the three-way competition last year and greatly impressed the members present during that competition. John will also judge one of our competitions later this year.
