

Image Critique Night

This week's club night will be all about your images. Please bring them along to have senior members of the club pass on their advice on where, if at all, they can be improved.

The second half of the night will be a discussion on how best to prepare your images for projected competitions. Damien will be compere but seeing as Clodagh has been crowned as the IPF Projected Image Photographer of the Year, I'd say we will seek her advice too!
